

GRADE:	SB
FIBER TYPE:	Polyester
DESCRIPTION:	Fine denier, spun bond polyester, renewable media, which combines high efficiency, excellent release characteristic with moisture tolerance to give an excellent high volume, extended-life filter.

	IMPERIAL STANDARD	METRIC
MATERIAL WEIGHT	8 oz/yd ²	278 gm/m ²
CALIPER OVERALL	.024 inches	.61 mm
PERMEABILITY (FRAZIER)*	24	192
MULLEN BURST DRY	388 PSI	2675 KPA
TEMPERATURE LIMIT	275° F	135° C

EFFICIENCY AT OPERATING CONDITIONS	99.99%
---	---------------

BIA RATING

U, S, G, C

* Frazier Method – the volume of air, in CFM, that can flow through 1 ft.² of media at 0.5 W.G. pressure drop (or l/sec/m² at 20 mm H₂O).
